How can Humanism help us to care for one another?

Facts

Humanism is a progressive philosophy of life that, without theism or other supernatural beliefs, affirms our ability and responsibility to lead ethical lives of personal fulfillment that aspire to the greater good.

Humanists DO NOT have an absolute morality as they do not have a strict set of rules (like the 10 commandments) that they must always follow.

They believe there is not one meaning to life. Humans decide their own meaning and purpose.

Humans should try to live a full and HAPPY life and help others do the same.
