# Alec Reed Academy – Online Safety Policy

## Development / Monitoring / Review of this Policy

This e-safety policy has been developed by a working group made up of:

- Principal: Mr Cosby
- School Safeguarding Officer: Ms Franklin
  - DDSL(s): Secondary – Clare Dormer, Primary - Julie Porter, Taniya Ahmed
- Trustees/ Board
  - Led by Louise Prince (Chair of the Board of Trustees)
- Senior Mental Health Lead: Julie Bockling
- Staff – including Teachers, SaFE workers, Support Staff, Technical staff
- Parents and Carers
- Community users

Consultation with the whole school community has taken place through a range of formal and informal meetings.

## Schedule for Development / Monitoring / Review

|                                                                                                                                                                                                                                                         |                                                       |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------|
| This e-safety policy was approved on:                                                                                                                                                                                                                   | September 2025                                        |
| The implementation of this e-safety policy will be monitored by the:                                                                                                                                                                                    | <b>Senior Leadership Team and Education Committee</b> |
| Monitoring will take place at regular intervals:                                                                                                                                                                                                        | Annually                                              |
| The Governing Body will receive a report on the implementation of the e-safety policy generated by the monitoring group (which will include anonymous details of e-safety incidents) at regular intervals:                                              | Annually                                              |
| The E-Safety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to e-safety or incidents that have taken place. The next anticipated review date will be: | September 2026                                        |
| Should serious e-safety incidents take place, the following SLT should be informed:                                                                                                                                                                     | Safer Schools Officer: Anne Franklin                  |

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Monitoring logs of internet activity (including sites visited)
- Internal monitoring data for network activity
- Surveys / questionnaires of
  - students / pupils
  - parents / carers
  - staff

# Alec Reed Academy – Online Safety Policy

## Scope of the Policy

This policy applies to all members of the academy community (including staff, students / pupils, volunteers, parents / carers, visitors, community users) who have access to and are users of academy ICT systems, both in and out of the academy.

The Education and Inspections Act 2006 empowers Principals to such extent as is reasonable, to regulate the behaviour of students when they are off the academy site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying, or other e-safety incidents covered by this policy, which may take place outside of the academy, but is linked to membership of the academy. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see appendix). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The academy will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate e-safety behaviour that take place out of school.

## Roles and Responsibilities

The following section outlines the e-safety roles and responsibilities of individuals and groups within ARA:

### Governors:

Governors are responsible for the approval of the E-Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about e-safety incidents and monitoring reports. A member of the *Governing Body* has taken on the role of E-Safety Governor. The role of the E-Safety Governor will include:

- regular monitoring of e-safety incident logs
- regular monitoring of filtering/change control logs
- reporting to relevant Governors meeting

### Principal:

- The Principal has a duty of care for ensuring the safety (including e-safety) of members of the school community.
- The Principal and the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious e-safety allegation being made against a member of staff.
- The Principal is responsible for ensuring that all relevant staff receive suitable training to enable them to carry out their e-safety roles and to train other colleagues, as relevant.

### Network Manager:

The Network Manager is responsible for ensuring:

- that the academy's technical infrastructure is secure and is not open to misuse or malicious attack
- that the academy meets required e-safety technical requirements and any E-Safety Policy that may apply.
- that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed
- the filtering policy, is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person
- that they keep up to date with e-safety technical information to effectively carry out their e-safety role and to inform and update others as relevant
- that the use of the network / internet / Virtual Learning Environment /remote access/ email is regularly monitored in order that any misuse or attempted misuse can be reported to the Principal and DSL for investigation

# Alec Reed Academy – Online Safety Policy

- that monitoring systems are implemented and updated as agreed in the academy policies

## Teaching and Support Staff:

The Teaching and Support Staff are responsible for ensuring that:

- they have an up-to-date awareness of e-safety matters and of the current academy e-safety policy and practices
- they have read, understood and signed the Staff Acceptable Use Policy
- they report any suspected misuse or problem to the Principal and DSL
- all digital communications with students, parents and carers should be on a professional level and only carried out using official school systems
- e-safety issues are embedded in all aspects of the curriculum and other activities
- students understand and follow the e-safety and acceptable use policies
- students have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned students should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

## Child Protection Officer:

The Child Protection Officer should be trained in e-safety issues and be aware of the potential for serious safeguarding issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate on-line contact with adults/strangers
- potential or actual incidents of grooming
- cyber-bullying

## Students / pupils:

- **are responsible for using the academy digital technology systems in accordance with the Student Acceptable Use Policy**
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking and use of images and on cyber-bullying.
- should understand the importance of adopting good e-safety practice when using digital technologies out of school and realise that the academy's E-Safety Policy covers their actions out of school, if related to their membership of the school

## Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet/mobile devices in an appropriate way. The academy will take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website / VLE and information about national / local e-safety campaigns / literature.

# Alec Reed Academy – Online Safety Policy

Parents and carers will be encouraged to support the academy in promoting good e-safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- their children's personal devices in the academy (where this is allowed)

## Policy Statements

### Education – students / pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating students to take a responsible approach. The education of students in e-safety is therefore an essential part of the ARA's e-safety provision. Children and young people need the help and support of the ARA to recognise and avoid e-safety risks and build their resilience.

E-safety should be a focus in all areas of the curriculum and staff should reinforce e-safety messages across the curriculum. The e-safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned e-safety curriculum should be provided as part of Computing / PHSE / other lessons and should be regularly revisited
- Key e-safety messages should be reinforced as part of a planned programme of assemblies and tutorial / pastoral activities
- Students / pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Students / pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that students should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where students are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics (eg racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request for the sites to be removed from the filtered list. Helpdesk will have up to 24hrs to check content before removing those sites from the filtered list. Daily Safeguarding notification will be reviewed each day by Helpdesk and any safe guarding concerns will be raised with the Lead Safeguarding Officer.

### Education – parents / carers

Many parents and carers have only a limited understanding of e-safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Letters, newsletters, web site, VLE
- Parents / Carers evenings sessions
- High profile events and campaigns eg Safer Internet Day
- Reference to the relevant web sites / publications eg [www.swgfl.org.uk](http://www.swgfl.org.uk) [www.saferinternet.org.uk/](http://www.saferinternet.org.uk/) <http://www.childnet.com/parents-and-carers>

# Alec Reed Academy – Online Safety Policy

## Education – The Wider Community

The academy will provide opportunities for local members of the community to gain from the school's / academy's e-safety knowledge and experience. This may be offered through the following:

- Providing family learning courses in use of new digital technologies, digital literacy and e-safety
- E-Safety messages targeted towards grandparents and other relatives as well as parents.
- academy website will provide e-safety information for the wider community
- Supporting community groups eg Early Years Settings, Child-minders, youth / sports / voluntary groups to enhance their e-safety provision

## Education & Training – Staff / Volunteers

It is essential that all staff receive e-safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal e-safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the e-safety training needs of all staff will be carried out regularly.
- All new staff should receive e-safety training as part of their induction programme, ensuring that they fully understand the school e-safety policy and Acceptable Use Agreements.

## Training – Governors / Directors

Governors should take part in e-safety awareness sessions, with particular importance for those who are members of any sub-committee / group involved in technology / e-safety / health and safety / child protection. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation.
- Participation in school training / information sessions for staff or parents

## Technical – infrastructure / equipment, filtering and monitoring

If the academy has a managed ICT service provided by an outside contractor, it is the responsibility of the school to ensure that the managed service provider carries out all the e-safety measures that would otherwise be the responsibility of the ARA, as suggested below. It is also important that the managed service provider is fully aware of the academy E-Safety Policy / Acceptable Use Agreements.

The ARA will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their e-safety responsibilities:

- Academy technical systems will be managed in ways that ensure that the academy meets recommended technical requirements
- There will be regular reviews and audits of the safety and security of school academy technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school / academy technical systems and devices.
- The administrator passwords for the academy ICT system, used by the Network Manager (or other person) must also be available to the Principal or other nominated senior leader and kept in a secure place
- The Network Administrator is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
- Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored.
- The school has provided enhanced differentiated user-level filtering
- Academy technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.

# Alec Reed Academy – Online Safety Policy

- An appropriate system is in place through class teacher and email system for users to report any actual / potential technical incident / security breach to the relevant person, as agreed).
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.
- An agreed policy is in place for the provision of temporary access of “guests” (eg trainee teachers, supply teachers, visitors) onto the school systems.
- An agreed policy is in place (to be described) regarding the extent of personal use that users (staff / students / pupils / community users) and their family members are allowed on school devices that may be used out of school.
- An agreed policy is in place that forbids staff from downloading executable files and installing programmes on school devices.
- An agreed policy is in place (to be described) regarding the use of removable media (eg memory sticks / CDs / DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

## Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and students instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and students need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate students about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet eg on social networking sites.
- In accordance with guidance from the Academy Policy, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone’s privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other students / pupils in the digital / video images.
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images.
- Care should be taken when taking digital / video images that students are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Students must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include students will be selected carefully and will comply with good practice guidance on the use of such images.
- Students’ full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Written permission from parents or carers will be obtained before photographs of students / pupils are published on the school website

## Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject’s rights

# Alec Reed Academy – Online Safety Policy

- Secure
- Only transferred to others with adequate protection.

## The academy must ensure that:

- It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.
- Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.
- All personal data will be fairly obtained in accordance with the “Privacy Notice” and lawfully processed in accordance with the “Conditions for Processing”.
- Risk assessments are carried out
- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained
- There are clear and understood policies and routines for the deletion and disposal of data
- There is a policy for reporting, logging, managing and recovering from information risk incidents
- There are clear Data Protection clauses in all contracts where personal data may be passed to third parties
- There are clear policies about the use of cloud storage / cloud computing which ensure that such data storage meets the requirements laid down by the Information Commissioner’s Office.

## Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.

When personal data is stored on any portable computer system, memory stick or any other removable media:

- the data must be encrypted and password protected
- the device must offer approved virus and malware checking software
- the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete

## Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

|                                          | Staff & other adults |                          |                            |             | Students / Pupils |                          |                               |             |
|------------------------------------------|----------------------|--------------------------|----------------------------|-------------|-------------------|--------------------------|-------------------------------|-------------|
|                                          | Allowed              | Allowed at certain times | Allowed for selected staff | Not allowed | Allowed           | Allowed at certain times | Allowed with staff permission | Not allowed |
| <b>Communication Technologies</b>        |                      |                          |                            |             |                   |                          |                               |             |
| Mobile phones may be brought to school   | ✓                    |                          |                            |             | ✓                 |                          |                               |             |
| Use of mobile phones in lessons          |                      |                          |                            | ✓           |                   |                          | ✓                             |             |
| Use of mobile phones in social time      | ✓                    |                          |                            |             |                   |                          |                               | ✓           |
| Taking photos on mobile phones / cameras |                      | ✓                        |                            |             |                   | ✓                        |                               |             |

# Alec Reed Academy – Online Safety Policy

|                                                                 |   |   |  |   |  |  |  |   |
|-----------------------------------------------------------------|---|---|--|---|--|--|--|---|
| Use of other mobile devices eg tablets, gaming devices          | ✓ |   |  |   |  |  |  | ✓ |
| Use of personal email addresses in school, or on school network |   |   |  | ✓ |  |  |  | ✓ |
| Use of school email for personal emails                         | ✓ |   |  |   |  |  |  | ✓ |
| Use of messaging apps                                           |   | ✓ |  |   |  |  |  | ✓ |

When using communication technologies the school considers the following as good practice:

- The official *academy* email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored.
- Users must immediately report to the Lead Safeguarding Officer – in accordance with the academy policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and students or parents / carers (email, chat, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) school / academy systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Students should be taught about e-safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the academy website and only official email addresses should be used to identify members of staff.

## Social Media - Protecting Professional Identity

All schools, academies and local authorities have a duty of care to provide a safe learning environment for pupils and staff. The Academy could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the academy liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through limiting access to personal information:

- Training to include: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to students / pupils, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the academy
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.

The academy's use of social media for professional purposes will be checked regularly by the senior risk officer and e-safety committee to ensure compliance with the Social Media, Data Protection, Communications, Digital Image and Video Policies.

# Alec Reed Academy – Online Safety Policy

## Unsuitable / inappropriate activities

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in school or outside school when using school equipment or systems. The school policy restricts usage as follows:

### User Actions

|                                                                                                                                                                                       |                                                                                                                                                                            | Acceptable | Acceptable at certain times | Acceptable for nominated users | Unacceptable | Unacceptable and illegal |

# Alec Reed Academy – Online Safety Policy

## Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above).

### Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

# Alec Reed Academy – Online Safety Policy

## Other Incidents

It is hoped that all members of the ARA community will be responsible users of digital technologies, who understand and follow academy policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

**In the event of suspicion, all steps in this procedure should be followed:**

- Have more than one senior member of staff / volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the url of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:
  - Internal response or discipline procedures
  - Involvement by Local Authority or national / local organisation (as relevant).
  - Police involvement and/or action
- **If content being reviewed includes images of Child abuse then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:**
  - incidents of 'grooming' behaviour
  - the sending of obscene materials to a child
  - adult material which potentially breaches the Obscene Publications Act
  - criminally racist material
  - other criminal conduct, activity or materials
- **Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the *school / academy* and possibly the police and demonstrate that visits to these sites were carried out for child protection purposes. The completed form should be retained by the group for evidence and reference purposes.

## Academy Actions & Sanctions

It is more likely that the academy will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:
