

## Spanish Curriculum Overview

At Alec Reed Academy we want our pupils to be naturally curious to learn foreign languages, in this case Spanish. Our curriculum has been developed through a rich range of teaching resources which cover the National Curriculum and encourage children's engagement and help deepen their understanding of the world. A linear and progressive curriculum has been chosen to allow an opportunity for children to gradually build on their skills. The Spanish lesson enables children to express their ideas and thoughts in Spanish, providing opportunities for them to interact and communicate with others for practical purposes both in speech and in writing. We aim to expose children to authentic Spanish and offer regular opportunities to listen to native speakers. We promote and celebrate these skills and we want our children to have a broad vocabulary. We aim to inspire pupils to develop a love of languages and to expand their horizons to other countries, cultures and people. We want children to grow into curious, confident and reflective language learners and to provide them with a foundation that will equip them in further language studies.
