

# Year 3 – Branching Databases Knowledge Organiser

Children understand what is meant by a database

Children can add a formula to a cell to automatically make a calculation in that cell

## Star Vocabulary

**Branching database:** used to classify groups of objects by answering questions with either 'yes' or 'no'

**Database:** a collection of data organised in such a way that it can be searched easily.

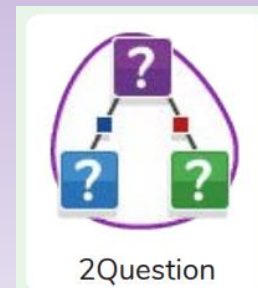

**Question:** something that is asked or written to try and gain information

**Data:** facts and statistics collected together for information

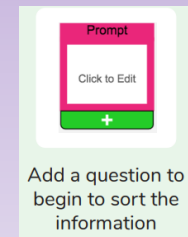

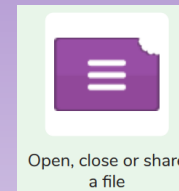

## Key Learning

- To sort objects using just 'yes' or 'no' questions.
- To complete a branching database using 2Question.
- To create a branching database of the children's choice.

## Key Resources

## Key Images

Understand how YES/NO questions are structured and answered

Contributed to a class branching database about fruit

Choose a suitable topic for a branching database.

Create a branching database

Explain why you have chosen a particular question to split your database.

Completed a branching database about vegetables

Select and save appropriate images

Know how to use and debug their own and others branching
