Blended Learning | Online Variety Schedule

January and February 2021

Information for Parents

Research from the Education Endowment Foundation and Ofsted suggest that there isn't a difference, in terms of effectiveness, when comparing activity-based learning and live-streamed lessons. Based on this, and our desire to make daily and weekly screen-time levels tolerable for our students, we have devised an 'Online Variety Schedule'. This schedule details which lessons will be live-streamed and which will be activity-based. We hope that the schedule will also enable families to plan their days and weeks - especially where devices are shared. As far as possible, teachers will aim to keep to this schedule - but please do keep checking ClassCharts (our way of communicating learning with parents) for any changes, which may result from where Covid-19 affects staffing or particular topics of themes require a temporary change.

Colour Key

Activity-Based Lessons | These lessons have an assignment posted to Microsoft Teams. Students need to work independently and complete this task.

Live-Streamed Lessons | In these lessons, students have to log in to Microsoft Teams and join their teacher online for a live lesson.

Alternating: Live-Stream and Activity-Based | These lessons alternate in the mode of delivery from week to week. Please check ClassCharts and Microsoft Teams to see whether they are live-streamed or activity based.

Instructions

On ClassCharts (or using their paper timetable if they took it home) look at your child's timetable. The timetable contains the same codes as the codes listed below. These are his/her class codes. Please note: for lesson times, ignore the times provided on ClassCharts and follow the times listed on this schedule.

It may be worth creating a timetable at home and marking whether the lesson is Activity-Based, Live-Streamed or Alternating.
